MAHMOUD HEWIDY

Computer Science Student | Automation & AI Agent Builder (Make.com, n8n) | Software Testing Trainee

mahmoudhewidy4@icloud.com +20 106 740 9308 New Damietta, Egypt

PROFILE

Second-year Computer Science student (New Mansoura University) building practical automation, AI agent, and full-stack development skills alongside formal coursework. Currently completing DEPI's Software Testing track and building an automation portfolio with Make.com and n8n, including a real clinic workflow and an AI customer-support agent. Comfortable with low-code automation, front-end development, and QA fundamentals; seeking freelance, internship, or junior-level opportunities to apply these skills on real projects.

EDUCATION

Digital Egypt Pioneers Initiative (DEPI), *Software Testing Track Round 5* 12/2026
Training provider: Global Knowledge

New Mansoura University (NMU), *B.Sc. Computer Science* 2025 – 2029
Faculty of Computer Science (2nd Year)

SKILLS

Automation & AI Agents (Make.com, n8n; scenarios, routers, filters, iterators, aggregators, webhooks, HTTP/API modules, JSON & data structures; AI agent workflows and tool integration; Make Foundation certified) | **Programming** (Java (OOP - encapsulation, polymorphism, constructors), JavaScript) | **Web Development** (React, Tailwind CSS, Node.js) | **Software Testing** (manual testing fundamentals (DEPI coursework)) | **Other** (Professional client communication, freelance proposal writing, LinkedIn profile optimization)

PROJECTS

Clinic Workflow Automation, *ClinicFlow*
Designed and built an end-to-end automation system for a family clinic using Make.com — main portfolio piece demonstrating real-world scenario design.

Payment Transaction Processing & Idempotency System
Built a Make.com automation handling payment transaction webhooks with idempotency handling to prevent duplicate processing.

Real Estate Website, *React + Tailwind*
Built property listing pages with property cards, hover overlays, contact sections, and hero section design.

AI Customer Support Agent, SupportPilot
Built a Make.com AI agent with two connected scenarios to check orders, retrieve policies, and assess return eligibility. Generates English and Arabic reply drafts with evidence citations, refund validation, and human handoffs. Live-tested across 10 demo cases using synthetic data.

Food Delivery System, *Group Project — DEPI*
Collaborated on a group project applying Java/OOP concepts to a food delivery system.

LANGUAGES

Arabic (Native) | **English** (Professional working proficiency) | **German** (Learning (Goethe-Institut))
